

OĞUZHAN KUL

Business Analyst Candidate | MIS Graduate — Data Analytics & Process Improvement

İzmir, Turkey | +90 541 297 1933 | oguzhankul01@hotmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Management Information Systems graduate focused on analyzing business processes and turning them into data-driven solutions. Experienced with SQL and Power BI for data analysis, and Draw.io for process/workflow modeling. Through KoeStudio, delivered end-to-end digital solutions for two restaurant businesses — analyzing owners' operational needs (reservation flow, KVKK data-protection compliance) and translating them into technical requirements. Now looking to bring this analytical, process-driven approach to a business analyst role.

TECHNICAL SKILLS

Business Analysis	Requirements Analysis, Process Mapping (BPMN), Stakeholder Communication, Functional Documentation
Data Analysis	SQL, Microsoft Power BI, Excel, SQLite
Process Modeling	Draw.io
Web Development	HTML5, CSS3, JavaScript
Programming & Automation	Python, AI-Assisted Workflows, Prompt Engineering
Tools	Git, GitHub, Vercel, VS Code
Languages	Turkish (Native), English (Fluent in speaking and writing)

TECHNICAL PROJECTS

Freelance Web Developer — KoeStudio (Own business)

Ongoing

- Analyzed business needs and delivered end-to-end digital solutions for two restaurant brands ([Meydan Pide](#) and [Mekan Efes](#)) — responsive UI, built with HTML5/CSS3/JavaScript, deployed and hosted on Vercel.
- Analyzed the reservation process and translated it into a WhatsApp-based flow; defined and implemented KVKK-compliant data handling requirements from the design stage onward.
- Brand identity development: logo design and QR menu system (Mekan Efes).
- Version control and codebase management: [github.com/Oguzhan-35](#)

WORK EXPERIENCE

Sales Consultant — Desa Deri

Aug 2026 – Present

- Conducted customer needs analysis to provide product consulting, contributing to monthly store sales performance.
- Coordinated inventory tracking, visual merchandising, and store operational processes.

Crew Member — McDonald's

Jun 2025 – Sep 2025

- Maintained process standards (speed, hygiene, service quality) in a high-volume operational environment.

Store Staff — Shell

Jun 2023 – Sep 2023

- Ran daily store operational processes including POS transactions, inventory management, and customer service.

EDUCATION

Management Information Systems (B.Sc.) — Aydın Adnan Menderes University

Sep 2023 – Jun 2026
